Applicants must have graduated from the undergraduate program of a university/college or the equivalent.

Applicants must have excellent academic and personal records of basically the previous or present academic home institutions as a degree-seeking full time student. Please consider the following principles on grading standard designated by MEXT when host institutions recommend its' applicant(s) to this scholarship program.

[Grading standard example designated by MEXT]

Applicants must have minimum GPA 2.30/3.0 or higher to be able to be eligible for MEXT applicant.

Please don't recommend applicant who doesn't meet this requirement.

Applicant's GPA must be calculated using the MEXT system. Applicant's grades for most recent 2 years must be included in this calculation. As different universities may use different grading systems, MEXT has prepared the following table of examples to demonstrate its calculation system for converting applicants' GPAs to the MEXT GPA standard. Your MEXT-calculated GPA is rounded down to the third decimal place..

Examples of grading scales used by universities	Grades				
		Excellent	Good	Fair	Poor
Example 1: 4-point scale	-	Excellent	Good	Fair	Poor
Example 2: 4-point scale	-	A	B	C	F
Example 3: 4-point scale	-	100-80	79-70	69-60	59 or below
Example 4: 5-point scale	100-90	89-80	79-70	69-60	59 or below
Example 5: 5-point scale	S	A	B	C	F
Example 6: 5-point scale	A	B	C	D	F
MEXT Grade Points Awarded	3	3	2	1	0

Formula:

$$\left(\begin{array}{|l|} \hline \text{(No. of credits (units)} \\ \hline \text{in which the student} \\ \hline \text{obtained a MEXT} \\ \hline \text{grade point of 3)} \\ \hline \text{multiplied by 3} \\ \hline \end{array} \right) + \left(\begin{array}{|l|} \hline \text{(No. of credits (units)} \\ \hline \text{in which the student} \\ \hline \text{obtained a MEXT} \\ \hline \text{grade point of 2)} \\ \hline \text{multiplied by 2} \\ \hline \end{array} \right) + \left(\begin{array}{|l|} \hline \text{(No. of credits (units)} \\ \hline \text{in which the student} \\ \hline \text{obtained a MEXT} \\ \hline \text{grade point of 1)} \\ \hline \text{multiplied by 1} \\ \hline \end{array} \right) + \left(\begin{array}{|l|} \hline \text{(No. of credits (units)} \\ \hline \text{in which the student} \\ \hline \text{obtained a} \\ \hline \text{MEXT grade point of} \\ \hline \text{0) multiplied by 0} \\ \hline \end{array} \right) \div \left(\begin{array}{|l|} \hline \text{The total} \\ \hline \text{number} \\ \hline \text{of credits} \\ \hline \text{(units)} \\ \hline \end{array} \right) = \left(\begin{array}{|l|} \hline \text{MEXT} \\ \hline \text{GPA} \\ \hline \end{array} \right)$$

If your home university does not use any credit system, please do the following to calculate your GPA:

- Using the above scheme, add your grade points for every course you have completed.
- Then divide it by the total number of courses you have completed.

(5) **Study Area:**

The study area must be in the same or related field as the applicant has studied in his/her undergraduate level. In addition, the study area must be the field that Chuo University is able to instruct him/her.

2. Screening at Chuo University

Screening procedures at Chuo University will be done as follows:

- 1) All candidates are required to choose host professors according to their major. They may choose up to two possible professors.
 - Database of Chuo professors: <http://ir.c.chuo-u.ac.jp/researcher/index.html>
 - Information on Graduate schools: <http://www.chuo-u.ac.jp/academics/>
- 2) The International Center, Chuo University will forward all application materials to the relevant Graduate Schools.
- 3) Each prospective host professor will receive the application materials through the office of the Graduate School and examine them, and then the professor will decide if he/she will be able to accept the candidate as a research student.

In case that a candidate is appropriate for a research student, the professor will contact a candidate by e-mail to have further information by asking the purpose of study, field of study and so on. After this e-mail correspondence (internet interview), the professor will make final decision if he/she accepts a candidate as a full time non degree student. If a candidate doesn't contact the professor by the designated date, he/she will miss the opportunity to be recommended. A candidate will receive e-mail from the professor in [early February 2020](#).

If the professor decides that a candidate is not appropriate for a research student, Chuo University cannot receive him/her as a research student.

- 4) Based on the application documents and the decision of each prospective host professor, the International Center Committee will make a decision on whether candidates be recommended to MEXT as a candidate of scholarship grantee.

- 5) International Center of Chuo University will notify the applicants' home institution of the results of screening at Chuo University in **early April 2020**.
- 6) To be a full-time degree seeking student with this scholarship, applicants need to pass the entrance examination of Chuo University and also get permission to extend the scholarship from MEXT.

3. Screening by *MEXT*

Chuo University will recommend the candidates to *MEXT* with all required documents. *MEXT* will then confer with the selection committee. *MEXT* will make the final decision for the grantee and the term of scholarship.

[Please note]:

- 1) Chuo University cannot grantee that the recommended students will be accepted by *MEXT* as grantees.
- 2) Even though the applicant failed in acquiring this scholarship, Chuo University does not provide financial grant of any kind.

4. Notice of *MEXT*'s screening results

MEXT will inform the results of the screening to Chuo University by the end of June 2019. International Center, Chuo University will notify the applicants' home institution of the results then.

Conditions need to be followed by the regulations of MEXT and Chuo University.
